

# MASSIMILIANO CIPOLETTA

## About me

---

My thirty-year professional career in the world of digital innovation, ranging from software development to communication projects with latest-generation technologies in the ICT field, peaked with the entrepreneurial and managerial experience in Gruppo SCAI, of which I was a main partner and CEO and which I helped to grow, both in Italy and abroad, from 60 million to over 110 million in turnover and from approximately 600 to over 1,400 employees.

From 2015 to November 2024, I held the position of CEO at Gruppo SCAI, a network of companies operating in Italy, following projects of international scope and alongside the presidency of the various partner companies.

My career has allowed me to delve into business needs and corporate issues, as well as to have a broad vision of the market and its features. My relationship experience both with SME owners and with managers of multinational corporations has given me the chance to develop a significant capacity for analysing customer and market needs, acquiring professional business skills and strengthening my aptitude for relationships and mediation.

My working style is results-driven and based on the ability to imagine and invest in new scenarios and development objectives, building networks of virtuous relationships.

## My engagement with Institutions

---

Over the years, I have combined my profession as a manager and entrepreneur with a continuous engagement with institutions. Indeed, being able to make my skills and my time available to the community and the common good has always been a priority for me.

Furthermore, I believe that intermediate bodies are the ones guaranteeing democracy and development in a society looking to the future: in the last 15 years of my life, it has been an honour to be part of them.

## Languages

---

Italian, *native speaker* | English, *advanced* | French, *advanced*

## Military service

---

Carabinieri 1987-1988

## Sports

---

Skiing, mountain biking and squash

I was born in San Severino Marche (MC) in 1968 and grew up in Turin, a city that has accompanied me throughout my professional career.

I am 56 years old and I am the father of three children who are now adults. I am therefore in that phase of life in which I can count not only on the experience acquired at a professional level and through volunteering in associations, but also on the energy to face new challenges to which I can ensure suitable time and dedication.
